

Free 30-Day XDR Trial

Blumira's platform detects early signs of an attack and helps you respond faster to prevent a data breach. With our SIEM +XDR platform and 24/7 security operations team combined, **you get 24/7 coverage – there's no need to hire full-time analysts to manage your security.**

COLLECT LOGS

DETECT THREATS

AUTO-RESPOND
+ 24/7 SECOPS

XDR Trial Benefits:

- **Save time** with easy and fast cloud deployment
- **Protect against the latest threats** with critical security detections
- **Save money on hiring staff** with Blumira's 24/7 daily log monitoring
- **Faster threat response** with alerts sent within minutes; automated response contains endpoint threats
- **Greater visibility** into early attack signs that other tools may miss
- **Easily meet compliance** with one year of data retention*
- **Extend your security team** with Blumira's 24/7 SecOps team that provides support for critical priority issues*

**Must upgrade to paid XDR edition to gain access*

After trial activation, we'll guide you through fast & easy setup:

Congratulations! You can now try out XDR Platform free for 30 days!

Start protecting your organization right away with Blumira Agent.

Blumira Get Started Guide

[See what else you can do with XDR Platform](#)

XDR Trial Features:

- Unlimited, easy-to-setup cloud integrations
- Endpoint visibility and response for Windows, Mac & Linux
- Pre-built detections identify advanced threats early, alerting you in minutes
- Automated response to contain threats immediately through device isolation
- Access to all global reports & Executive Summaries, including compliance
- Limited Blumira security operations support
- 30 days of data retention

Upgrade to Paid XDR for:

- Continued endpoint visibility and automated response with Blumira Agent
- Continued access to all global reports & Executive Summaries, including compliance (ISO, NIST, CIS, CMMC, FERPA, FINRA)
- Unlimited Cloud Connectors and access to all on-premises integrations, including firewalls
- **One year of data retention and option to extend to satisfy compliance***
- **24/7 Security Operations (SecOps) support for critical priority issues***

How to Upgrade:

[Contact us at blumira.com/try-xdr](https://blumira.com/try-xdr)

**You'll need to upgrade to SIEM+ or XDR to gain 24/7 SecOps support and one year of retention for compliance.*

*"Blumira is really easy to understand – you don't need a degree to be an expert to operate and understand what the system is doing. **It provides a lot of value for the cost**, and makes our response time really quick." - Keith Knisely, Assistant VP of IT, SouthTrust Bank*

TRY XDR TODAY

Blumira makes security easy and effective for SMBs, helping them detect and respond to cybersecurity threats faster to stop breaches and ransomware.
