Blumira

Blumira's Detection & Response

BUILT FOR SM(ALL) TEAMS

Breaches and ransomware are increasing, as small teams struggle to acquire defenses and meet compliance requirements

RISING RANSOMWARE

Ransomware attacks have doubled in the past two years, increasingly targeting SMBs*

SLOW RESPONSE

Average time to detect & contain a breach is 287 days, resulting in 35% higher costs -- on average, $4.8 million**

STRICTER COMPLIANCE

New data regulations, including cyber insurance, require SIEM and one year of log data retention

SMBs need security to meet compliance & reduce risk – but traditional tools today fail them.

TOO COMPLEX

Security solutions today are built for large enterprises with big budgets and big teams with advanced security expertise

LIMITED RESOURCES

Require add'l infrastructure, security skills, months to get operational – teams stretched too thin between IT & security tasks

TIME CONSTRAINTS

Too many alerts to comb through to find real threats delays critical response time – threats go unnoticed, resulting in breaches

THE BLUMIRA VALUE

Get easy, effective security your team can actually use to defend against breaches and ransomware, while meeting compliance and cyber insurance requirements.

Blumira's **all-in-one** SIEM combines logging with automated detection and response for better security outcomes.

"

Blumira does the heavy lifting to pare down the overwhelming amount of data from logs into actionable events. That allows us to focus on revenue-enhancing activities.

Michael Cross, CIO
Greenleaf Hospitality

Blumira

HOW DO WE DO THINGS DIFFERENTLY?

Meet compliance controls, save time on security tasks, focus on real threats and protect against a breach faster than ever -- with Blumira.

UNIFY YOUR TOOLS

Our platform unifies EDR capabilities, SIEM logging, detection & response to identify threats other security tools may miss, sending you alerts in under a minute of detection to help you respond to threats faster than ever.

AUTOMATE MANUAL TASKS

We do all the heavy lifting for your team to save them time -- parsing, creating native third-party integrations, testing and tuning detection rules to reduce noisy alerts. Our SecOps team is available 24/7 for critical priority issues.

EASILY MEET COMPLIANCE

With a year of data retention and deployment that takes minutes to hours, we help you meet cyber insurance and compliance easily and quickly with the team you have today.

BLUMIRA'S PLATFORM HELPS YOU DETECT AND RESPOND TO THREATS 99.4% FASTER THAN THE INDUSTRY AVERAGE, HELPING YOU SUCCESSFULLY AVOID A BREACH.*

SECOPS SUPPORT

" I don't have the staff dedicated to sit and read logs all day or with the skillset to analyze our data. **We chose Blumira for its simplicity** – I needed a solution that would simplify, consolidate and show me what I really need to see.

Jim Paolicelli, IT Director
Atlantic Constructors

BLUMIRA FREE EDITION

Protect your Microsoft 365 environment in minutes! Sign up free (no credit card required) to get:

- Cloud SIEM with detection & response
- Automated detection rules applied
- Playbooks on how to respond to threats
- Security reports to see risk trends
