

Blumira's XDR Platform

FOR SMALL & MEDIUM-SIZED BUSINESSES

Lean IT teams struggle to defend against cyberattacks and meet compliance requirements.

TIME-STRAPPED

Managing security tools requires threat hunting, managing rules, parsing data, developing integrations and more.

NO 24/7 TEAM

Lean IT teams struggle due to high costs of enterprise solutions, talent shortage and lack of security expertise.

COMPLEXITY

Too many disparate solutions results in redundancies and lack of visibility into remote endpoint risks.

BLUMIRA IS EASY, EFFECTIVE & EFFICIENT

EASY

Reduce reliance on humans to complete manual security tasks to save time and refocus efforts

EFFECTIVE

Accelerate breach prevention and ransomware protection with security automation

EFFICIENT

All-in-one open platform simplifies workflows with hybrid coverage, satisfying more compliance controls

THE BLUMIRA VALUE

Blumira's open XDR platform makes advanced detection and response easy and effective for small and medium-sized businesses, accelerating ransomware and breach prevention.

Time-strapped IT teams can do more with one solution that combines SIEM, endpoint visibility and automated response.

Blumira does the heavy lifting to pare down the overwhelming amount of data from logs into actionable events. That allows us to focus on revenue-enhancing activities.

Blumira

HOW IT WORKS

FEATURES:

- **Managed detections** for automated threat hunting to identify attacks early
- **Automated response** to contain and block threats immediately
- **One year of data retention** and option to extend to satisfy compliance
- **Advanced reporting** and dashboards for forensics and easy investigation
- **Lightweight agent** for endpoint visibility and response
- **24/7 Security Operations (SecOps)** support for critical priority issues

BENEFITS:

- ✓ Reduce complexity by consolidating security tools into one platform
- ✓ Integrate broadly to provide insight across your entire environment
- ✓ Use automation to speed up detection and response

I don't have the staff dedicated to sit and read logs all day or with the skillset to analyze our data. **We chose Blumira for its simplicity** – I needed a solution that would simplify, consolidate and show me what I really need to see.
